Leadership Accelerator

for NQ Trades & Industry Professionals

From trade to leadership. From employee to business owner. The CDD Leadership Accelerator gives NQ industry professionals the framework, the tools, and the strategy to take their next step with confidence.

5 CORE MODULES

1	Personal Leadership Identity Discover your leadership strengths, values, and style using AI self-assessment prompts. Define how you show up as a leader.
2	Team Communication AI tools for running team briefings, delivering feedback, handling difficult conversations, and writing clear instructions your team follows.
3	Project & Workflow Management Practical AI-assisted frameworks for planning, prioritising, and managing workflows as a supervisor or foreman. Less chaos, more control.
4	Business Awareness Understand the numbers behind the job: client relationships, subcontract structures, margins, and what Tier 1 primes actually look for.
5	Career Architecture Map your path from current role to your next level: senior leadership, business ownership, or subcontracting. Includes AI prompts.
